PS25087

Description

Aims and Objectives

The CCC require an update of the flood risk and adaptation analysis carried out in CCRA3. We require a supplier to carry out quantitative modelling to provide a robust and comparable evidence base to our previous assessment.

The commissioned update should be constructed in a way that it can be linked to the separate CCC commission of a vulnerability dataset, which includes a flood vulnerability index.

The commissioned analysis should:

- Update CCRA3 flood risk analysis with the most recent input data on present day risk (e.g. from the 2024 National Flood Risk Assessment NaFRA2 for England).

- Test the investment requirement to maintain present-day risk, using a range of adaptation measures within the current flood defence portfolio.
 - Assess the optimum level of investment for flood risk reduction.
-

Contract 1

Supplier

- SAYERS AND PARTNERS LLP

Contract value

- £51,250 excluding VAT
- £61,500 including VAT

Above the relevant threshold

Earliest date the contract will be signed

14 May 2025

Contract dates (estimated)
