Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Enterprise Asset Management Solution

Reference number

SW21/TI&T/1360

II.1.2) Main CPV code

- 48517000 - IT software package

II.1.3) Type of contract

Supplies

II.1.4) Short description

Scottish Water seeks a new Enterprise Asset Management solution as we embark on a long-term transformation programme to enhance our capability in Asset Management. Our network of assets is nationwide, serving 2.5 million households and 152,000 businesses nearly 1.4 billion litres of water; - the management of these assets is strategically critical. Replacing our legacy ABB Ellipse solution of 17 years, you could have the opportunity to provide the foundational system for this transformative journey. We invite specialist software suppliers who offer the latest and best Enterprise Asset Management tooling to respond to this PQQ.

II.1.5) Estimated total value

Value excluding VAT: £20,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

Main site or place of performance

SCOTLAND

II.2.4) Description of the procurement

Scottish Water seeks a new Enterprise Asset Management solution as we embark on a long-term transformation programme to enhance our capability in Asset Management. Our network of assets is nationwide, serving 2.5 million households and 152,000 businesses nearly 1.4 billion litres of water; - the management of these assets is strategically critical. Replacing our legacy ABB Ellipse solution of 17 years, you could have the opportunity to provide the foundational system for this transformative journey.

We invite specialist software suppliers who offer the latest and best Enterprise Asset Management tooling to respond to this PQQ.

Key requirement highlights

As a bidder your solution must provide strong capability in core Enterprise Asset Management, including:

- Being a single asset registry; capturing linear and non-linear asset information, designs and configurations, in defined data hierarchies, linking this information with supporting documentation, and governance and controls for data updates/refreshes
- Operational planning including systemised scheduling, resource planning/tracking and management and recording of planned and unplanned works
- Asset operations, works and maintenance, including real time data stream capture, alerting, reliability analysis, maintenance forecasting and cost optimisation of interventions
- Mapping and visualisation of asset data, including reporting
- Tracking the connectivity and criticality of individual asset elements

Your solution must be capable of integrating to our key line of business systems and cloud platforms, and be able to empower our operatives and managers through role-specific interface views, workflows, rich reporting capability and visibility of decisions actioned in-system.

As a company you will be required to demonstrate experience in infrastructure or a comparable industry, with strong capabilities in transition project management, data migration, and client partnering. You may also provide implementation services.

Further desirable capability includes:

- Strategic investment and systems planning; including business case, full life cost, risk and demand modelling, scenario analysis
- Project and construction management for creation/upgrade/disposal of assets including tracking construction delivery, requirements management, commissioning outputs and design tools/digital twin models
- Risk management including dynamic risk assessment, live risk reporting and forecasting, scenario modelling and failure mode analysis

Please refer to Schedule 1 for an aide-memoire of capability and requirement sets.

Model:

Subject to the commercial offering a contract will be awarded with an initial term of five (5) years with five (5) years of extension options.

The total spend over the framework period for the Enterprise Asset Management Solution is forecasted between £10 - £20 million. These figures may vary depending on the additional options Scottish Water may adopt.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £20,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

120

This contract is subject to renewal

Yes

Description of renewals

The contract will be awarded for an initial term of five (5) years with a further five (5) years of extension options thereafter at the sole discretion of Scottish Water.

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged minimum number: 6

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

The PQQ documents can be also accessed by logging in through the Scottish Water Delta E-Sourcing webpage <https://scottishwater.delta-esourcing.com> and through the Response Manager section using the following Access Code: TH7U9GQ8FG

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.2) Economic and financial standing

Minimum level(s) of standards possibly required

Applicants will be expected to be of sufficient financial and economic standing to support the anticipated contract value. All applicants must complete the financial questions within the pre-qualification questionnaire and tender documents. Financial standing relevant to the anticipated contract value will be determined by Scottish Water based on the response to the pre-qualification questionnaire and any further financial checks deemed necessary.

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.1.6) Deposits and guarantees required

Scottish Water reserves the right to require deposits, guarantees, bonds or other forms of appropriate security.

III.1.7) Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

All prices quoted shall be in Sterling (UK) and all payments shall be made in Sterling (UK). Payment shall be made on the basis of completed services in accordance with the agreed contract rates, schedules and conditions of contract.

III.1.8) Legal form to be taken by the group of economic operators to whom the contract is to be awarded

In the event of a group of companies submitting an accepted offer it will be necessary for each member of the group to sign an undertaking that each company in the group will be jointly and severally liable for the satisfactory performance of the contract.

III.2) Conditions related to the contract

III.2.2) Contract performance conditions

Bidders must comply with modern slavery act and operate an ethical supply chain.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with a single operator

In the case of framework agreements, provide justification for any duration exceeding 8 years:

10 years is the anticipated maximum life span of this system.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

6 September 2021

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.2) Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3) Additional information

Scottish Water will not accept the SPD. We will only accept a completed Scottish Water PQQ document. This Notice does not preclude Scottish Water from issuing other notices for specific requirements. Responses to the FTS Notice will be evaluated and only successful applicants following PQQ evaluation will be invited to submit a tender. Scottish Water reserves the right to divide the scope of the contract into lots at tender and contract award stages as it deems appropriate. Applicants who fail to supply all of the information requested in response to this Notice or any resulting tender exercise may risk elimination.
