The Council will analyse and review all responses and contributions from the Market/Stakeholder Engagement Events and use this information to help shape future commissioning of these services.

The event will generate insights on areas such as:

- How demand, needs and service requirement have changed in recent years?
- Innovation and targeting of services
- Sustainability of health behaviours.

Please be advised that this is not a call for competition and should not be perceived as an intention to procure services. The aim of these events is to only gather insights/intelligence, which will be used to inform future service delivery.
