Tenders may be submitted electronically

Yes

Languages that may be used for submission

English

Award decision date (estimated)

1 August 2025

Award criteria

Name	Description	Type	Weighting
Commercial	Price will account for 60%. The Supplier with the lowest acceptable price will achieve the highest available commercial weighting. The other bids will then receive a weighting expressed as an inverse proportion of the lowest price. The calculation will be: (Lowest tendered price / Tenderer's price) x 60%	Price	60%
Technical	Quality will account for 40%. Suppliers are required to demonstrate how they will carry out the Services by responding to each of the posed technical questions. The technical questions are each divided into several "Components" to guide Tenderers as to the structure and content of their response. All Components are treated equally and are not placed in any order of importance. Tenderers must address all the Components in their response. Responses that more strongly address the Components of the Technical Question are likely to be awarded higher levels of confidence.	Quality	40%

Other information

Payment terms

Unless otherwise agreed in writing between the parties, the Purchaser shall pay the Price within sixty (60) days of receipt of invoice by the Purchaser of a proper invoice or, if later, after acceptance of the Goods or Services in question by the Purchaser.

Conflicts assessment prepared/revised

Yes

Competitive flexible procedure description

Chiltern Railways will shortlist suitably qualified suppliers off the dynamic market RISQs using RICCL code H.L.12.2 Infrastructure Gritting (platforms, car parks, walkways etc). Chiltern Railways will issue a SSQ via RISQS to assist Chiltern Railways in deciding which suppliers to short-list and invite to tender using Chiltern's e-Sourcing portal Market Dojo.
