II.2.4) Description of the procurement

Our GCSE exam results are excellent, with student attainment well above the national average. We have a strong and successful sixth form, with a very high proportion moving on to university including Oxbridge. Following their visit in June 2017, Ofsted inspectors commented on our commitment to high standards.

The contract will commence on 1 April 2023 for an initial period of three years, ending on 31 March 2026, with the opportunity to extend for a further period of two years at the discretion of the governing body.

This contract will be fixed price in nature with the successful Supplier guaranteeing both the number of input hours to the contract and the quality of cleaning provision.

We are seeking a suitably experienced Supplier who has current experience of working within the primary or secondary school market place, ideally with a strong operational base within the Wiltshire area, thus allowing for both adequate contract support and operational flexibility that is to be delivered to support the contract as and when required moving forwards into this contract term.

The scope of the contract covers all cleaning provision within the school buildings. The successful Supplier will be expected to deliver a concise and detailed method of management reporting at the end of each month, thus updating the school senior management team on the contract performance.

Any variations to the contract that are requested by the Client should be invoiced at the agreed rate and should be calculated on an hourly rate per employee needed to carry out the variation to the satisfaction of the contract supervising officer. The Client's requirement shall be for 190 academic days, 5 inset days and 20 days periodic cleaning per annum.

Whilst the monthly charge will represent one-twelfth of the contract cost, a reconciliation will take place monthly to reconcile the actual hours worked within the contract. If the hours worked are less than those budgeted for a credit will be required by the Client. The Client requires that the tendered amount of hours are worked at all times and the successful Supplier is expected to have a system in place to cover for both planned and unplanned leave.

The Supplier shall provide a comprehensive cleaning service to the Client so as to promote a clean, healthy and safe environment which presents a positive image to all users and visitors.

The school premises must at all times meet health, safety and environmental standards appropriate to the school and its use and the successful Supplier must comply with the

Client's health, safety and environmental policies and procedures. The services must be provided so as not to interrupt the routine of the school.

The focus of our requirement is for a high-quality cleaning service, fully compliant to the agreed specification at all times.

The projected labour cost of cleaning for the current year is circa £172K however, it is believed that through equipment and cleaning material innovation and the effective recruitment, training and supervision of cleaning staff there is opportunity for some positive development. External window cleaning and feminine hygiene contracts are currently in place and shall continue to be managed directly by the school, consequently, are out of scope of this contract.

The focus of the requirement is equally for a high-quality cleaning service, fully compliant to the agreed specification at all times.
