I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

Other activity

Transport

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Electric Vehicle Infrastructure MSQ

Reference number

DN561418

II.1.2) Main CPV code

- 31600000 - Electrical equipment and apparatus

II.1.3) Type of contract

Supplies

II.1.4) Short description

The aim is to better understand supplier and service provider appetite, capacity and capability, as well as perceived risks and opportunities. Findings will inform activities underway to define the continued role of the Greater London Authority (GLA) and TfL in enabling market switch to electric vehicles (EV) through the provision of charge points.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKI - London

II.2.4) Description of the procurement

Across London, TfL has recently managed the implementation of over 4,000 electric vehicle charging points, including both residential and rapid charging units. The purpose of this questionnaire is to engage with the market, to help shape the longer-term role of TfL in the provision of electric vehicle infrastructure and to meet growing demand.

The Transport Decarbonisation Plan and commitment to ban new petrol and diesel cars from 2030 will require an accelerated roll out of electric vehicle (EV) infrastructure in London and across the UK.

Please complete the Market Sounding Questionnaire MSQ found at the below link by the closing date of Friday 3 September 2021
