## Section II: Object

### II.1) Scope of the procurement

#### II.1.1) Title

Market Engagement - Request for information, Compressor Projects

Reference number

45255000

#### II.1.2) Main CPV code

- 45250000 - Construction works for plants, mining and manufacturing and for buildings relating to the oil and gas industry

#### II.1.3) Type of contract

Works

#### II.1.4) Short description

National Gas Transmission (NGT) is seeking market feedback in relation to their procurement and contract strategy which seeks the creation of strategic delivery partnerships for the delivery of upgrade and new installations at high-pressure gas compression sites and asset health works. New compressors will be required in some locations. Asset Health refers to the replacement, refurbishment and decommissioning of above and below ground mechanical and civil assets and associated electrical works. NGT are currently exploring a strategy to optimise investment five priority sites and a significant amount of investment required across the 28 compressor units on the UK network that will become non-compliant with MCPD legislation by 2030 (Medium Combustion Plant Directive). The purpose of this PIN is to obtain market feedback and engagement and to seek feedback in relation to a number of areas of the developing asset management contracting strategy.

## **Section VII. Changes**

### **VII.1) Information to be changed or added**

#### **VII.1.2) Text to be corrected in the original notice**

Section number

II.2.2

Read

Additional CPV code(s)

- 71000000 - Architectural, construction, engineering and inspection services

### **VII.2) Other additional information**

National Gas Transmission (NGT) is seeking market feedback in relation to their procurement and contract strategy which seeks the creation of strategic delivery partnerships for the delivery of upgrade and new installations at high-pressure gas compression sites and Asset Health works. It is expected but not limited that new compressors will be required in some locations and further include Asset Health. Asset Health refers to the replacement, refurbishment and decommissioning of above and below ground mechanical and civil assets and associated electrical and ICA works. NGT are currently exploring a strategy to optimise - but not limited to, investment at five priority sites and a significant amount of investment required across the UK network of 28 compressor units that will become non-compliant with MCPD legislation by 2030 (Medium Combustion Plant Directive). The purpose of this PIN is to obtain market feedback and engagement and to seek feedback in relation to a number of areas of the developing asset management contracting strategy.
