- UKI - London

Companies House

02317133

The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Change of upper Lot call-off thresholds:

Current upper thresholds:

Lot 1 Minor Works up to £500,000 (with option to extend to £750,000)

Lot 2 Intermediate Works between £500,000 and £5,000,000

Lot 3 Mechanical & Electrical works up to £1,000,000

Modify to new higher call off thresholds:

Lot 1 Minor Works up to £500,000 (with option to extend to £2,000,000)

Lot 2 Intermediate Works between £500,000 and £5,000,000 (with option to extend to £10,000,000)

Lot 3 Mechanical & Electrical works up to £5,000,000

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

72(1)(c)(i): Property Service Department's (PSD) original business case for the procurement of the current Building Works Framework (BWF) had considered its requirements carefully (in terms of scope, value and duration), and that Lot thresholds and quantum of expenditure did reflect the planned estate strategy and forward works programme anticipated in 2020/21. PSD did not, nor could not have anticipated, the additional volume of works that a refreshed estate strategy now presents to both enhance the estate, retain and refurbish buildings once identified for disposal, and to change many aspects of the estate to meet new initiatives Net Zero 2030 Mayoral pledges, with retrofitting the estate for major M&E and decarbonisation infrastructure, plus the roll-out of EV electric car charging infrastructure. These initiatives are also part of and included further changes as a results of the post Casey Review and Commissioner's Turnaround Plan.

The current framework was planned and procured with reference to the following key documents:

March 2021 - Governance business case sign off, with DMPC sign off by April 2021, setting out the scope, value and duration of the intended BWF.

May 2021 - Contract Notice published

February 2022 - Contract Award Notice published

February 2022 - Commencement and on-boarding of supply chain for service delivery over a four-year framework duration.

Significant decisions post procurement commencement the BWF include:

October 2021 - UK Gov't publishes its NZC Strategy: Building Back Greener

December 2021 - Commissioners response to and commitment to Mayoral targets, including NZC and the MPS's commitment to retrofit and energy efficiency on the MOPAC estates, to speed up London's progress to net zero by 2030, including a committed pipeline of buildings to retrofit by 2024.

January 2022 - Mayor of London announces policy to make London net zero by 2030

April 2023 - The 2021 - 2025 Estate Strategy has been reviewed in order to ensure alignment with the Turnaround Plan, whilst delivering on the MPS's mission of more trust, less crime and high standards. This work will assist in setting the MPS up for success over the longer term and delivery of the 2023 Turnaround Plan and other estate requirements.

72(1)(c)(ii): The Framework will deliver more of the same and will increase the upper Lot limits in order to provide resilience and ensure delivery to the required timescales particularly in the case of NZC funding commitments.

72(1)(c)(iii): No price increase to the original framework contract value beyond the provisions provided for by these Regulations.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £200,000,000

Total contract value after the modifications

Value excluding VAT: £200,000,000
