#### **II.1.4) Short description**

Team Leidos would like to make interested suppliers aware of the requirement for a lightweight-wheeled ultrasound cart system that will integrate with imaging solutions and deployed PACS system. Each system must have compatibility and seamless electronic connectivity to a viewing platform and long-term image archive.

The resultant framework agreement would be for an initial estimated 4 units and awarded for a period of up to 4 years. Leidos reserves the right to order more than the estimated quantity over the life of the agreement.

The requirement also includes spare parts, training and servicing as required.

For the full 48 month term the anticipated value will be circa £400,000 to £700,000. These values are approximate only and are based on the most recent historical usage information, with a forecasted level of growth. The volumes provided are for guidance only and are not a guarantee of business.
