II.2.4) Description of the procurement

This VEAT notice is being issued to confirm NGN's requirement for extension of our current contract with SAP Concur for a 5 year period. A contract renewal will be put in place with SAP.

SAP Concur allows our workforce to administer travel and expense claims which has been successfully utilised across the business. This system offers a slick claims process with a quick approval turnaround which allows staff to be reimbursed their expenses really efficiently. Although it is possible to consider other vendors, NGN would need to deploy and integrate a brand new solution and re-train all users, at significant cost. This extension also compliments our 5 year SAP contract.

II.2.11) Information about options

Options: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Northern Gas Networks (NGN) intend to renew their SAP Concur services for a 5 year period. Without this renewal, NGN will lose access to key critical business applications. Extending provides NGN with security of supply around this critical system. With NGN's current architecture, the optimal approach is to continue using SAP products, as the alternative would be a re-implementation of new technology, need to deploy and integrate a brand new solution and re-train all users, which would be at a significant cost to NGN.
