Description

The requirement is for the procurement and in service support of approximately 800 Handheld Metal, Low Metal Detectors.

The in-service support shall include, but not limited to provision of spares, repairs, servicing and maintenance, training, obsolescence management.

The detectors have the following requirements:

The handheld Metal, Low Metal detector capability shall be a single handheld sweep detector, to provide a crush wire, metal, low metal, detect capability.

The capability shall be Man-portable, deployable and robust for deployment in all

environmental climates and at all scales to detect and locate the presence or absence of Explosive Ordnance (EO) and Improvised Explosive Devices (IEDs)

The equipment shall be supportable over a 10-year period from Initial Operation Capability (anticipated 1 years post contract award) with the ability to procure additional systems if required during this time. The contract shall be a total of 11 years (7 years + 4, 1 year options)

The highest classification of the requirements and data managed through the In-Service Support of Handheld Metal, Low Metal Detector contract is OFFICIAL SENSITIVE.

The Cyber Risk level for this procurement is VERY LOW. The Risk Assessment Reference (RAR) is RAR-287051598. A full description of the Cyber Risk levels is available at DEFSTAN 05-138. Potential Providers should make themselves familiar with the requirements against the profile assessment for this risk level.

Total value (estimated)

- £36,347,259.17 excluding VAT
- £43,616,711 including VAT

Above the relevant threshold

Contract dates (estimated)

- 20 May 2026 to 5 May 2033
- 6 years, 11 months, 17 days

Options

The right to additional purchases while the contract is valid.

The requirement is for the delivery of Initial Operating Capability (IOC) within 1 years of

contract award with an initial in-service support period of 7 years which will commence from acceptance of IOC. The Contract will include the following Contract Options to extend the in-service support duration for a further 4 years to a total of 10 years of in-service support and total contract duration of 11 years:

Qty 4, 1-year options to extend In-Service Support.

The Authority reserve the right, at its absolute discretion, to not take up any or all the option(s). Further information on the option(s) will be provided in the Invitation to Tender.

Competitive flexible procedure description

The Handheld Metal, Low Metal Detector is currently being procured through the Competitive Flexible Procedure in accordance with the Procurement Act 2023 ('The Act').

The following steps to arrive at contract award decision are as follow;

Project Specific Questionnaire (PSQ) -The top 6 compliant suppliers with the highest technical scores shall be invited to Invitation to Tender (ITT). PSQ reference - <https://contracts.mod.uk/go/884863250196AA31CA05>

Invitation to Tender, the evaluation shall have two stages;

Paper Based evaluation - the top 3 compliant suppliers with the highest technical scores will progress to confirmation trials.

Confirmation Trials - the proposed solution shall be tested against specific system requirements as set out in the ITT.

Full information on how the procurement procedure, including evaluation criteria, strategy and stages of evaluation shall be provided within the ITT and Tender Notice.

The Authority reserves the right under the Procurement Act 2023 to:

To cancel the procurement procedure at any stage.

Not to award a contract as a result of the procurement process.

Make any modifications during a competitive flexible procedure, provided that the deadline to participate or submit a first or only tender has not passed (section 31(1)(b))

Make non substantial modifications, during a competitive flexible procedure, up to the deadline of the final tendering stage (section 31(2)(a))

Refine or supplement the award criteria during a competitive flexible procedure (section 24(1))
