## **VII.2) Information about modifications**

### **VII.2.1) Description of the modifications**

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Secure assessment service continuity and stability beyond the current contracts end date on 31/07/21 extending the Lot 1 contract for the period 01/08/21 to 31/07/23.

Provide the contractual flexibility for any subsequent changes to ongoing service design necessitated by Covid-19 measures and any associated Policy changes made, during the extension period.

Allow the Department to implement pre-Covid flexibilities to remove volume and service from Providers into a Departmental Transformation Area/to deliver Devolution of PIP, if required.

Transition to a Cost Plus funding model for the extension period to strike the right level of risk ownership to drive optimal performance and to address the continuing impact of Covid-19.

### **VII.2.2) Reasons for modification**

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

Following pre-market engagement DWP concluded that the IT and estate infrastructure needed to support new contracts present substantial challenges to new market entrants and unacceptable risk in respect of a six month transition period. The modification (i) provides sufficient time to develop solutions within the existing contract to ensure the safe

migration of the services and (ii) allow DWP to develop, build, test and implement an IT solution to support the new contract(s).

A change in contractor would not be possible as the changes are intrinsically linked to the current contracts. The absence of a viable DWP IT system would substantially increase the cost of new contracts, increase the risk of contract failure and result in the exclusion of market entrants for future service delivery.

The changes are also necessary to make the extension commercially viable and offer value for money. PIP is a critical statutory welfare benefit and a gap in service provision is unacceptable.

### **VII.2.3) Increase in price**

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £661,300,000

Total contract value after the modifications

Value excluding VAT: £872,700,000
