- Outdoor environment that promotes walking, cycling and active travel
- Healthy weight is a high priority in the building and design process
- Safe, accessible and well used greenspaces, parks and play areas
- Affordable healthy food retailers and accessible free drinking water available
- Fewer low cost unhealthy food and drink options advertised and on sale

- Residents with the skills and confidence to cook and grow healthy foods
- Healthy and active education settings and workplaces

- Front line professionals raising the conversation and making referrals
- Effective weight management support services for all ages
