Engagement

Engagement deadline

21 May 2025

Engagement process description

The FCA would like to engage with prospective providers of an equity consolidated tape or suppliers of technology to be used to deliver its proposal to design and implement a Consolidated Tape ("CT") for the equities market. The FCA is especially interested in the cost drivers of the tape and other design considerations, such as resiliency. For further information on the Consolidated Tape for equities market please visit the FCA's website [<https://www.fca.org.uk/markets/data-reporting-services-providers/equities-consolidated-tape>] The FCA would like to receive Expressions of Interest in discussing the cost and other design factors of the equity CT from suppliers with relevant expertise. Suppliers should register their Expression of Interest via the FCA's Procurement inbox [FCAProcurement@FCA.org.uk], by 21/05/2025. In those Expressions of Interest suppliers should provide the following information: - Company Name and Registration Number - Registered Address - Registered Website Address (if applicable) - Lead Contact details including Name, role in organisation, email address and phone number. - Explanation of your expertise which is relevant to this subject matter Following receipt of Expressions of Interest, the FCA intends to arrange calls with all respondents who it determines have suitable expertise in this area, along with other third parties it separately identifies as having expertise. These discussions will focus on the costs of different elements of building and maintaining an equities CT and the FCA may issue further details of areas for discussion prior to those scheduled calls. As the FCA continues with the development of its policy and proposed approach for the structure of the Consolidated Tape for equities, in particular in the drafting of its consultation paper, it may seek to engage further with all, or a sub-set, of those suppliers who have expressed an interest, along with other third parties it identifies as having relevant expertise.
