II.1.4) Short description

The City of Edinburgh Council in partnership with the Edinburgh Health and Social Care Partnership (EHSCP) is looking to establish a flexible purchasing system for Home Based Care and other associated services. This will be a long-term opportunity with the aim to work in partnership with providers to increase capacity for services under Self Directed Support (SDS) as per the Social Care (Self-directed Support) (Scotland) Act 2013. The EHSCP wishes to build community networks of support which will meet the changing requirements of Edinburgh Citizens. They require Home Based Care and associated services which are tailored to meet Edinburgh Citizen's needs and can adapt by flexing capacity, whilst having a focus on sustainability, high standards of care, value for money and continuous improvement. The Flexible Purchasing system will be split into Categories and Sub-Categories (Lots), which are still in development, to cover the range of potential contracts which could be issued through the flexible purchasing system throughout the 10-year term. These may include: Category 1 - Home Based Care Re-design, Category 2 Individual Service Funds, Category 3 Specialised Services, Category 4 Associated Support Services. Due to the term of the opportunity, additional categories / sub-categories may be added in future, to reflect the Council's requirements.

Applying to this system will provide the Council with a list of providers who have proven to

have the required skill, knowledge, registrations etc to deliver the service, who could then be offered a contract as part of a Locality Partnership model with providers working together in the best interests of the individuals needing care. The aim of the Home-Based Care Re-design is to build upon networks and foster a culture of collaboration within a Locality model for adults and older people. This will enable data sharing between partners to understand our collective capacity, which will help us to enable growth with key partners and ensure efficient coverage across the city, allowing us to provide good quality of care which meets the needs of the individual within the City of Edinburgh. We want partners who will enable our vision to move from traditional "time and task" and work on the basis of what would improve the individuals' life.

Country

United Kingdom

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

A tenderer that suffers loss as a result of a breach of duty under the Public Contracts (Scotland) Regulations 2015 may bring proceedings in the Sheriff Court or the Court of Session. The City of Edinburgh Council (the Council) will have a minimum standstill period of 10 days before awarding the contract. The communication of the award decision notice will be sent by fax or e-mail to all tenderers with the standstill period commencing on the next day. If proceedings are started in the Sheriff Court or the Court of Session against the Council in respect of the decision to award the contract within the standstill period then the Council is prevented from awarding the contract. Post contract award the Sheriff Court or the Court of Session may (1) award damages provided proceedings are brought within 3 months from the date when the grounds for the bringing of the proceedings first arose (2) be entitled to issue an ineffectiveness order or impose a financial penalty on the Council. A claim for an ineffectiveness order must be made within 30 days of the Contract Award Notice being published in the FTS or within 30 days of the date those who expressed an interest in or otherwise bid for the contract were informed of the conclusion of the contract or in any other case within 6 months from the date on which the contract was entered into.
