II.2.4) Description of the procurement at the time of conclusion of the contract:

The Crime Survey for England and Wales (CSEW) contract for research & data services supports the Office for National Statistics' (ONS) strategic objective of reliable and trusted data, which informs policy makers, Parliament and the public about crime.

The services improve knowledge of the volume and changing nature of criminality and victimisation which, in turn, informs the public policy response to crime.

The services under the CSEW contract act as a research and data source for ONS to produce crime statistics and inform the development of public policy response to crime. The Contractor provides the rolling annual datasets, on a quarterly basis, based on research interviews with a representative sample of:

(a) Households and adults' resident in England and Wales; this covers their experience of crime in the previous 12 months, attitudes to crime and crime-related issues, awareness and use of crime prevention measures and essential demographic and background information to inform further analyses.

(b) Children aged 10 to 15 years living in such households; this covers similar topics to the main interview but with a narrower focus on experience of personal crime and issues related specifically to children, such as bullying.

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Due to COVID-19, all face-to-face survey operations ceased in March 2020 and the CSEW changed to a telephone survey operation (TCSEW), with the option of changing back to face-to-face surveys.

In April 2019, Kantar announced that it was unifying all its legacy brands (including Kantar TNS) and consolidating all services and offerings under the Kantar brand name, hence the name change to Kantar Public at Section VII.1.7 (Name and address of the contractor/concessionaire).

It is under a contract variation in July 2021 that ONS confirmed it would to continue to operate the contract with Kantar for a further two years to 31 March 2024. A Modification Notice was published on 13 July 2021 for this contract variation (2021/S 133-355188), with an increased total value of £28,849,818.23.

ONS is seeking to increase the sample size for the survey, following requests from the Home Office and the UK Government's Implementation Unit, with an increase in the target number of interviews to 70,000 per year by 2024. This will include a boost to the face-to-face interview numbers and the introduction of a longitudinal panel element to the survey with further interviews conducted by telephone at 12 month intervals.

ONS will be running a competitive tender exercise for the CSEW Contract 2024 - 2029. A Prior Information Notice was published on 24 June 2022 (2022/S 000-017318) to inform the market of our intentions. ONS will update the market further in relation to the requirements for the future CSEW Contract in due course.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

The CSEW interview is conducted using trained interviewers and a specialised script programmed by Kantar. Another contractor would need to adapt the script to its systems, which would be a considerable amount of work. A new panel of interviewers would have to be trained to conduct the survey, which would result in a significant additional cost for ONS. It would not be possible to develop a new telephone script to complete the follow up interviews within the required timeframes.

ONS (and the Home Office) require the uplift in sample size from October 2022, with the telephone survey starting at the same point. The rapid mobilisation of the uplift in interview numbers is critical and appointing a new contractor would cause significant delay to ONS' ability to deliver the increased interviews.

ONS will continue to update the market, and recommends that interested suppliers register their for upcoming market warming & engagement events on our e-tendering portal Intend via the following link - <https://in-tendhost.co.uk/ons/asp/Home>.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £28,849,818.23

Total contract value after the modifications

Value excluding VAT: £34,099,818.23
