NUTS code

UKL - Wales

Internet address(es)

Main address

<https://www.mhpa.co.uk>

Buyer's address

https://www.sell2wales.gov.wales/search/Search_AuthProfile.aspx?ID=AA1129

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.6) Main activity

Other activity

Port Operations

Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

Criterion Quay Flow Development Technical Support Package

II.1.2) Main CPV code

- 71311100 - Civil engineering support services

II.1.3) Type of contract

Services

II.1.4) Short description

This comprises: Supervision of Ground Investigation and reporting, Exemplar Design, Technical Support during main works tender and Contractor Design Check and technical

support and compliance checking of the works as they are built.

Our chosen approach will be to undertake the capital works via a design and construct contract. Our appointed consultant will undertake an exemplar design which will form part of the tender package. The consultant will then assist with queries during the tender process and assist with assessment of the returned tenders. Once the contractor is appointed the consultant will then undertake an independent check of the contractor's design to ensure compliance with the project requirements. If timing is favourable we anticipate the consultant will undertake supervision of the ground investigation and will produce the factual report.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 71311100 - Civil engineering support services

II.2.3) Place of performance

NUTS codes

- UKL14 - South West Wales

Main site or place of performance

Pembroke Dock

II.2.4) Description of the procurement

The Hobbs Point Floating Offshore Wind Development Project is envisioned to support the deployment of floating offshore wind infrastructure in the Celtic Sea. Delivery of this project will fortify the Pembroke Dock Marine project currently in development at Pembroke Dock, which is designed to create a world class centre for green energy development, acting as a catalyst for inward investment and the development of a regional Marine Centre of Excellence for current and future technology. Delivery of Hobbs Point Floating offshore wind will support the diversification of a strategic UK fossil fuel energy hub into a centre for the renewable energy industry. This will protect both the region and UK in terms of energy security, economy and inclusivity while also working towards achieving decarbonisation targets.

Milford Haven Port Authority (PoMH), as part of its ongoing programme of development at Pembroke Port (PP) intends to rebuild and expand a facility at Criterion Way/Criterion

Quay, initially to support Floating Offshore Wind (FLOW) Test and Demonstration stage projects.

The currently envisaged works comprise the following:

- Construction of a heavy lift jetty with associated mooring structures
- Dredging (substantially in rock, some possibly requiring drilling and blasting)
- Reclamation of about 2 Hectares of land over an intertidal area with anticipated beneficial use of the dredged material
- Remediation of existing land
- Surfacing of the reclaimed and remediated land with surface drainage
- Perimeter security fencing and gates
- Installation of internal electricity supplies for lighting and heavy duty power
- Provision of external services and connections
- Small ancillary buildings
- Environmental mitigation measures

The works are subject to grant funding which will have strict time limits.

II.3) Estimated date of publication of contract notice

6 November 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
