NUTS code

UKL - Wales

Internet address(es)

Main address

<https://www.mhpa.co.uk>

Buyer's address

https://www.sell2wales.gov.wales/search/Search_AuthProfile.aspx?ID=AA1129

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.6) Main activity

Other activity

Port Operations

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Criterion Quay Flow Development Design and Construct Works Package

II.1.2) Main CPV code

- 45244000 - Marine construction works

II.1.3) Type of contract

Works

II.1.4) Short description

We envisage this will be a contract let in one lot for the design and construction of the items listed in the introduction above. The contractor's designer will need to submit all

aspects of the design for an independent check. Construction aspects will include land remediation, strengthening and surfacing, an over water jetty, rock and sediment dredging, reclamation (with beneficial use of the dredged rock) and either sheet piling and/or a rock revetment to contain the reclaimed area. There will be a new access into the site from an existing road and there will be security gates and fencing surrounding the site.

Dredging activity will be included within the works contract.

M&E works will include site distribution of 3phase electrical power, water supplies and perimeter lighting. It is expected there will be limited requirements for water supplies to serve temporary offices, together with associated foul sewerage. Surface water drainage will be required to all non-porous areas.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45244000 - Marine construction works

II.2.3) Place of performance

NUTS codes

- UKL14 - South West Wales

Main site or place of performance

Pembroke Dock

II.2.4) Description of the procurement

The Hobbs Point Floating Offshore Wind Development Project is envisioned to support the deployment of floating offshore wind infrastructure in the Celtic Sea. Delivery of this project will fortify the Pembroke Dock Marine project currently in development at Pembroke Dock, which is designed to create a world class centre for green energy development, acting as a catalyst for inward investment and the development of a regional Marine Centre of Excellence for current and future technology. Delivery of Hobbs Point Floating offshore wind will support the diversification of a strategic UK fossil fuel energy hub into a centre for the renewable energy industry. This will protect both the region and UK in terms of energy security, economy and inclusivity while also working towards achieving decarbonisation targets.

Milford Haven Port Authority (PoMH), as part of its ongoing programme of development at Pembroke Port (PP) intends to rebuild and expand a facility at Criterion Way/Criterion Quay, initially to support Floating Offshore Wind (FLOW) Test and Demonstration stage projects.

The currently envisaged works comprise the following:

- Construction of a heavy lift jetty with associated mooring structures
- Dredging (substantially in rock, some possibly requiring drilling and blasting)
- Reclamation of about 2 Hectares of land over an intertidal area with anticipated beneficial use of the dredged material
- Remediation of existing land
- Surfacing of the reclaimed and remediated land with surface drainage
- Perimeter security fencing and gates
- Installation of internal electricity supplies for lighting and heavy duty power
- Provision of external services and connections
- Small ancillary buildings
- Environmental mitigation measures

The works are subject to grant funding which will have strict time limits.

II.3) Estimated date of publication of contract notice

15 November 2024

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section VI. Complementary information
