II.2.4) Description of the procurement

This PIN is not a call for competition

BEIS is considering appointing a contractor to deliver a major research programme which will answer a range of questions surrounding land use, bioenergy & other mitigation options. BEIS is considering 5 work packages:

- WP1, to investigate the area of land available for mitigation options, inc bioenergy, where & of what type, & identify evidence gaps for further research
- WP2 to identify CO2 savings of mitigation options, utilising UK land, how current mitigation options can be improved, & identify & quantify new technologies/options
- WP3 to investigate bottom up constraints of mitigation options (social, economic, environmental), particularly addressing areas for evidence collection identified in WP1 & 2
- WP4, to incorporate WP1, 2 & 3 to produce scenarios & provide updates for assumptions used in models such as, UK TIMES & others
- WP5 to form programme management and coordination to ensure the smooth running of the project
