Description

Currently the Council is at an early stage in the development of its business proposals. This is prior to formulating or commencing any formal procurement. We are therefore seeking input from the market as to what might be the most attractive and feasible way of scoping a future procurement opportunity.

This preliminary phase provides an opportunity for the Council to obtain insight into how potentially interested organisations might approach the delivery of dockless e-bike hire services. It also gives useful early insight into the likely level of interest from the supply market.
