The requirement is for an eDiscovery SaaS Solution with the ability to deliver the following outcomes:

- Ability to ingest large volumes of data
- Ability to perform E effective evidence management and create production of reviewed material
- Ability to conduct appropriate management of sensitive/protected information
- Ability to apply the use of advanced technology features where applicable

The system must be able to provide the below key strategic functionalities:

- Industry standard productions
- A robust and scalable intuitive system
- We are looking for a supplier that can deliver a partnership approach.

Additionally, as part of this engagement the FCA would like to understand if eDiscovery suppliers are able to deliver an evidence Property Management Store (ePMS) solution. The requirement is for an ePMS Solution with the ability to deliver the following outcomes:

- Ability to capture and store physical evidential details electronically
- Ability to remotely capture and store physical evidential details electronically
- Ability to manage access to the exhibits
- Ability capture data remotely

Following the pre-market engagement, the FCA will consider if eDiscovery and ePMS will be tendered as one or two separate solutions.
