II.1.4) Short description

The final date and time for the submission of bids is Tuesday, 23rd August 2022 at 14:00PM (GMT)

DO NOT apply directly to the buyer.

All tender information MUST be submitted through the Jaggaer eSourcing Portal.

Background to Agile IT Services framework

UKRI are looking to put a framework in place which will enable the rapid, agile resourcing of specialist IT services to meet agreed outcomes and deliverables while providing a time and materials payment structure.

The intention of the framework is to allow buyers to outline a statement of work and the associated required resourcing services to deliver the work.

For the avoidance of doubt, this framework does not include contingent labour.

The setup of this framework will be whereby services of different types may be called-off at short notice against rate-card rates.

This procurement framework will run over 4 years. The value of this framework will be £9.5m excluding VAT over the term of the four years.

Demand over the duration of the framework agreement is difficult to predict, however an approximate 30+ temporary services are consistently in use across Business Systems

and Innovation (BS&I) and Business Change to meet demand. This number increases / decreases based on project pipeline demand.

Services can be provided from outside of the United Kingdom however these must be provided in UK hours and with English language speakers.

All Services will be expected to comply with Customer IT Acceptable Usage, Cyber Security, Corporate Compliance policies, GDPR policies and relevant DBS Baseline Checks.

Services are to be validated as capable of the Service Type descriptions by the Framework Supplier. Liability for performance and professional indemnity sits with the Framework Supplier.

The structure of this framework will be over 9 different lots and suppliers are welcome to submit tenders for any of these lots. The framework value of £9.5m excluding VAT will be spread over the 9 different lots.

The lots are broken down as follows:-

Lot 1: Digital, Data and Technology capability

Lot 2: User Centred Design

Lot 3: Senior Data Roles

Lot 4: Salesforce

Lot 5: Workday

Lot 6: Developer

Lot 7: Solutions

Lot 8: Porfolio and Programmes

Lot 9: Functions

Each lot on the framework will be capped at 5 suppliers and will be evaluated based on a combination of price and quality elements. Please note that in the event of a tie for the 5th and 6th placed suppliers having the same score for both quality and price combined the bidder who scores the highest on quality criteria will be awarded 5th place. Upon identification of a need all suppliers will be approached to provide a bid submission on each Lot for each call-off requirement.

UK Shared Business Services Ltd (UK SBS) will be using the Jaggaer eSourcing Portal for this procurement.

To register on the Jaggaer eSourcing portal please use the link <https://beisgroup.ukp.app.jaggaer.com/> and follow the instructions to register as a supplier.

If you are already registered on the Jaggaer eSourcing Portal and wish to participate in this procurement, please use the link: <https://beisgroup.ukp.app.jaggaer.com/>.

Once you are logged into the system you will be able to locate the Procurement you wish to leave a bid on by clicking the ITTs Open to All Suppliers and searching for the reference number DDaT21501. The relevant lot number will then be able to be viewed within the Jaegger portal.

II.1.5) Estimated total value

Value excluding VAT: £9,500,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots
