- 66000000 - Financial and insurance services

II.1.3) Type of contract

Services

II.1.4) Short description

MRRS is designed as a grant administration service delivered through a Digital Platform. At a high level, MRRS shall invite Applicants to create an account and apply for a building to be remediated through the service's Digital Platform. The building's Eligibility shall then be assessed by the Supplier, and if it passes the requirements shall be brought within the scope of MRRS. Applicants shall then be required to compile a Work Package, or a plan of remediation works, including the costs and timescales of the work required to remediate the fire safety risk of the building. This Work Package shall be reviewed by the Supplier, and if it passes requirements the Applicant shall be authorised for grant funding in line with the terms of a signed Grant Agreement. The Applicant shall be given an initial payment with which they are required to begin remediation works, and thereafter must submit monthly Progress Reports of the work completed to date and what work is projected to be completed in the future, including any Cost Variations to the terms of the Grant Agreement. The monthly Progress Reports shall be reviewed by the Supplier, and if they pass the requirements shall trigger further incremental grant payments up to the point of completion of the works and submission of the final monthly Progress Report. For the final monthly Progress Report, the Applicant shall be required to submit a detailed breakdown of the remediation work completed along with a suite of final documentation. The Supplier shall review the final Progress Report in line with the data held on file for that Application, and if it passes the requirements the Supplier shall authorise the final payment to the Applicant. Throughout the process, the Supplier shall handle any Complaints, Appeals, Escalations and General Enquiries from the Applicant via a telephony and electronic communications service. Furthermore, the Supplier shall escalate specific matters to The Agency and the other Delivery Partners where it is appropriate to do, as outlined in the requirements below. Regarding payments, the Supplier shall be required to authorise all payments, whilst The Agency will retain the requirement to validate recipients and make those authorised payments.

II.1.5) Estimated total value

Value excluding VAT: £13,760,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.4) Description of the procurement

Following the tragedy at Grenfell Tower on 14 June 2017, industry-wide reviews of building materials, regulations and fire safety led to DLUHC commissioning The Agency to deliver the Mid-Rise Remediation Scheme (“MRRS”).

The core objective of MRRS is to remediate fire safety risks in the external walls of eligible buildings through the provision of grant funding to Responsible Entities.

This procurement and the resulting contract cover services over three phases summarised below. The service requirements and obligations of the Service Administrator in relation to the administration of each phase are set out in detail in Schedule 2.1 – Services Description Schedule of the published ITT documents.

Implementation – Includes the services and obligations on the Service Administrator in relation to the operational set up of the scheme including the configuration of a digitally enabled grant application system from.

Operations – Includes the services and obligations on the Service Administrator in relation to the core operational delivery of the scheme in order to perform back office and contact centre services to respond to applications for grant monies under the MRRS. This phase also includes the services and obligations on the Service Administrator in relation to the maintenance of the digital platform.

Exit – Includes the decommissioning of the services.

The initial period of this contract is 28.5 months (4.5 month implementation period followed by 24 months of operations) with the option to extend for a further 5 x 12 month periods.

The value of the initial 28.5 month period has been estimated as £6.1 million.

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 60%

Quality criterion - Name: Social Value / Weighting: 10%

Cost criterion - Name: Total Cost / Weighting: 30%

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

89

This contract is subject to renewal

No
