## Section II: Object

### II.1) Scope of the procurement

#### II.1.1) Title

Remountable Magnet Joints Technology Development Programme Consultancy

Reference number

T/CS099/24

#### II.1.2) Main CPV code

- 73200000 - Research and development consultancy services

#### II.1.3) Type of contract

Services

#### II.1.4) Short description

The services provided under this consultancy are intended to accelerate the development of STEP RMJ technology by reviewing the programme and providing expertise currently lacking in the team towards future test campaigns. The scope of the contract may also include the requirement for development engineering support. This specification is intended to procure unique experience and expertise, rather than a unique ability to deliver an engineering product.

The service provider shall have a demonstrable track record (experience and expertise) in as many of the following as possible: Rare Earth Barium Copper Oxide (REBCO) technical superconductors, resistive joints between superconducting cables and high spec superconductor test facilities, preferably all within the context of nuclear fusion.
