## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

TRG Contractor works framework (multi trade)

#### **II.1.2) Main CPV code**

- 50000000 - Repair and maintenance services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

TRG have a requirement to procure a solution for minor/ad hocs works across numerous trades and regions. There has been several occasions where urgent works (rising from a complaint) are needed and we do not have time for a full tender process, resulting in direct awards and creating new supplier.

Procurement have identified this need and are working with group wide stakeholders to identify the problem areas and regions to create a 'contractor works' framework. This will give TRG the ability to call off via trade via region for urgent works compliantly using NATFED Schedule of Rates, hopefully reducing the amount of complaints and new supplier set ups.

Data is provided to show number of jobs by trade by region to give indicative values.

TRG are using this as an expression of interest to invite contractors to a virtual bidders day to discuss the process and answer any questions you may have.
