II.2.3) Place of performance

NUTS codes

- UKH12 - Cambridgeshire CC

II.2.4) Description of the procurement

1. Design

Outline Design for transferring 50Ml/d Water from Grafham Water Treatment Works to Rede Reservoir including:

- New and Modifications to Water Treatment and Water Storage facilities
- Pipelines

2. Consenting

- Produce an achievable and efficient consenting strategy for both parts of the scheme with a driver towards permitted development where practicable.
- Work with the Local Planning Authority and other statutory undertakers in the development and production of the screening opinion and any other consenting requirements.
- Engage with statutory and non-statutory stakeholders to achieve consent.
- Production of documentation required for screening and delivery of the construction phase.
- Work with Land Management team to achieve best economic/programme/stakeholder outcomes.

- Develop, produce and implement archaeological strategy. This will likely involve working with the Anglian Water's Archaeological framework partners
- Work with and contribute to the AW Stakeholder Management Team as well as active stakeholder engagement

3. Enabling

- Plan and allow in the Consultant's programme physical site surveys (including ground investigation) necessary for screening opinion, planning permission or consenting requirement.
- Support the Anglian Water in the procurement and management of such physical site survey for best value of money, including the production of scope/works information with specifications, site information and bills of quantities/price list with measurement rules.
- Collaborate with construction teams to create a deliverable scheme.
