Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Waste Management Services for SPT

Reference number

22-082

II.1.2) Main CPV code

- 90511000 - Refuse collection services

II.1.3) Type of contract

Services

II.1.4) Short description

SPT's waste management contract will be for the provision of services for all waste streams throughout the SPT estate. SPT anticipates appointing a single supplier for all waste streams.

Submissions for part waste streams will not be accepted. The service requirements are described in the following sections. All requirements include the provision of appropriate equipment, containers and labour to enable the specified services to be provided except where existing or new equipment owned or purchased by SPT is made available. It is anticipated that the appointed supplier will provide an innovative approach to waste management utilising new technologies, equipment and processes. The description for each waste stream will include.

1.3.2 Waste stream (WS) details are as follows:

(Scheduled)

WS1: General Waste, including Foods- (Scheduled)

WS2 – Dry Mixed Recycling including paper, cardboard and glass

On Demand (48 hours SLA)

WS3: Fluorescent Lamps and White Goods (WEEE items)

WS4: COSHH waste

WS5: Wood

WS6: Rubble

WS7: Green Waste (seasonal)

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

registered as a waste carrier or broker as required under The Control of Pollution (Amendment) Act 1989 and The Controlled Waste (Registration of Carriers and Seizure Vehicles) Regulations 1991. The Special Waste (Scotland) Regulations 1997 (as amended), The Water Environment (Oil Storage) (Scotland) Regulations 2006 (as amended), Waste Management Licensing Regulations 1994 (as amended) and all relevant regulations relating to the disposal of this waste must be followed.

III.1.2) Economic and financial standing

Minimum level(s) of standards possibly required

as per T&C's of insurance

With regards SPD question 4B, SPT will use Dun and Bradstreet's DBAi financial reporting system to assess the financial stability of bidders. Bidders with a Failure Score of 51 or above on the DBAi system will be deemed to have evidenced satisfactory financial stability. Bidders must confirm within their response to the relevant question within the Qualification Envelope, the value of their D&B Failure Score.

In the event that the bidder does not have a Dun and Bradstreet rating or they consider that the rating has been adversely affected by factors which they can offer mitigating evidence for, we will use the following ratios to evaluate a bidder's financial status. Bidders must confirm within their response to the relevant question within the Qualification Envelope, the name and value of the 3 financial ratios listed below as taken from their own Accounts.

1 Profitability – this is taken as profit after tax but before dividends and minority interests. If a company makes a profit then it is a pass for this ratio;

2 Liquidity – this value is calculated as current assets less stock and work in progress, divided by current liabilities. If the answer is greater than or equal to one then it is a pass for this ratio;

3 Gearing – this value is calculated as the total external secured borrowing (short term and long term) divided by shareholder funds expressed as a percentage. If the answer is less than or equal to 100% it is considered a pass for this ratio.

Where 2 out of the 3 ratios cannot be met, we may then take account of other factors (including those listed below) when assessing financial viability and the risk to the organisation, providing that the Bidder can submit acceptable evidence to substantiate any of the mitigating criteria.

III.2) Conditions related to the contract

III.2.2) Contract performance conditions

48 SLA for on demand uplifts

Section IV. Procedure

IV.1) Description
