II.1.1) Title

Ground Investigation Works

II.1.2) Main CPV code

- 71351500 - Ground investigation services

II.1.3) Type of contract

Services

II.1.4) Short description

The Coal Authority (Client) was established by Parliament to undertake specific statutory duties, set out in the Coal Industry Act 1994, associated with licensing coal mining operations; managing property and the historic legacy arising from the ownership of the coal reserves and underground workings; settling subsidence damage claims not falling on coal mine operators and providing access to coal mining information.

The Coal Authority has a legal duty under the Coal Mining Subsidence Act 1991, to repair properties damaged by coal mining subsidence in the five coalfield regions. The works are funded by grant in aid from central government, in order that the Coal Authority can discharge its statutory duty.

The Coal Authority employs over 300, based mainly at the head office in Mansfield with some field staff remotely based in order to enable a fast response to incidents in the coal mining areas.

The Coal Authority is funded by grant in aid from the Department of Energy Security and Net Zero (DESNZ)

We will be publishing a competitive bidding exercise in Quarter 4 of 2023 which will be for the retendering of our existing Ground Investigation Framework which expires in February 2024.

This Notice is published to give interested parties advance notice of this opportunity.

The Coal Authority requires the provision of Ground investigation services which includes general items, boreholes, rotary drilling, pits and trenches, sampling, in-situ testing, geophysical testing, instrumentation and monitoring, laboratory testing, chemical testing for contaminated ground and attendance at framework meetings with the Client.

II.1.5) Estimated total value

Value excluding VAT: £6,500,000

II.1.6) Information about lots

This contract is divided into lots: Yes

II.2) Description

II.2.1) Title

Ground Investigation

Lot No

1
