II.2.4) Description of the procurement

HEE has developed and tested an eportfolio platform that facilitates the uploading and evaluation of an individual's portfolio of education and training evidence. Individuals collate and submit evidence which is then subjected to peer review scrutiny and an outcome concluded. This platform is highly scalable and flexible; it can facilitate the gathering and evaluation of evidence towards recognition of the equivalence of training/experiential learning of an individual practitioner working at an advanced level (and other levels of practice

as necessary), the platform can also serve as a Continuing Personal and Professional Development (CPPD) platform and for the uploading, validating and evaluation of other learning, including HEE credentials as they become available to the workforce.

HEE seeks to provide an opportunity for a significant number of individual practitioners who meet the eligibility criteria and who are already working at or towards advanced practice roles within NHS commissioned services to access its Supported e-Portfolio Route. HEE will award contracts to those providers engaged in healthcare, education or leadership that have current and demonstrable experience of assessing individual clinical practitioners against the requirements set out in the Framework.
