Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Platform Edge Protection Technology

Reference number

DN557276

II.1.2) Main CPV code

- 60200000 - Railway transport services

II.1.3) Type of contract

Services

II.1.4) Short description

Transport for London (TfL) is seeking to obtain market feedback on technologies or systems that can mitigate platform-train interface (PTI) risks in the absence of Passenger Edge Doors (PEDs) segregating passengers from a moving, driverless*, train.

TfL is currently working on a Department for Transport (DfT) led programme to consider the business case for driverless trains.

The platform-train interface (PTI) is a key area of risk that can be mitigated by the inclusion of PEDs. This market engagement is aimed at understanding alternative platform edge protection technology or systems that could be implemented, in some locations, at lower cost than PEDs while offering more flexibility.

Please request our Market Sounding Questionnaire by emailing
platformedgeprotectiontechnology@tfl.gov.uk

*Driverless but with an on-board attendant as on the Docklands Light Railway
