Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

This is a 1 year extension to the existing contract advertised and procured for a term of 7 years, to expire on the 5th September 2022. This extension falls outside of the initially advertised value and term, and shall be limited to 1 year. Procurement shall commence in early 2023 to re-procure the waste collection and disposal services. A PIN notice shall be issued in the next few weeks together with a market testing questionnaire to seek the view of the market prior to commencing the procurement. It is hoped the 1 year extension will allow sufficient time to engage with the waste market prior to the re-tender. Due to the disruption caused by Covid the University does not have accurate usage figures at this time, and it is felt that because of this lack of accurate data it may be problematic for bidders to tender accurate costs at this present time. The current volatile market conditions regarding fuel costs, and labour (driver) costs, also will make tendering accurate long term costs at this time problematic. The University shall continue to engage with the market and collect data to enable a competitive re-tender of this contract in early 2023.

IV.1.3) Information about a framework agreement

The procurement involves the establishment of a framework agreement

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
