II.1.4) Short description

Sheffield Hallam University requires an 3D Photogrammetry Scanner with its supporting equipment, software, and warranties, for the Institute of Technology. The equipment is part of a long-term plan to ensure that the University continues to offer an up-to-date, industry-relevant experience to our students and that we teach innovative cutting-edge technologies that not only add to the student experience but also the credibility of the University.

This tender is for the supply, installation, commissioning, warranty, and maintenance of a Photogrammetry 3D Scanning Rig. The Photogrammetry 3D Scanning Rig should capture highly precise and colour correct 3D data of people and objects. The 3D scanner will be used for a number of applications including:

- Human and face 3D scanning
- Medical and engineering based scanning items
- Fashion and clothing
