## Scope

#### Reference

#### **RFI2509**

## **Description**

Liverpool John Moores University (LJMU) is undertaking a pre-market engagement exercise to assess market capabilities for delivering a comprehensive physical security asset audit across the university estate. This RFI is not a call for competition/ITT, but rather a fact-finding and engagement step to inform the next phase of procurement.

This is the foundational phase of a larger transformation project aimed at optimising security operations, improving preventative maintenance, and planning for future integrated solutions. It is critical that all physical security assets are identified, recorded, and condition assessed to enable a smooth transition to a new security integrator.
