VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

This modification is to increase the contract value.

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

In accordance with Regulation 72(1)(c) where need for the change could not have been foreseen by a “diligent” Department this modification is for an uplift to the anticipated contract value. The original estimated value of the contract was based on market conditions and pricing at that time. Since then there has been the significant, unforeseen war initiated by Russia on Ukraine which has had an unprecedented global impact on supply and pricing in the energy market. Prices continue to escalate significantly with the pressure of the continued conflict and the impact of the disruption to production, supply and that of associated political sanctions.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £27,000,000

Total contract value after the modifications

Value excluding VAT: £40,750,000
