Description

A full repeat vegetation survey for Natural England's Long Term Monitoring Network project at Chobham Common NNR. A vegetation survey comprising recording of plant species presence and cover, and other attributes across 50 2mx2m permanent monitoring plots across the site. Preparation work includes relocating the permanent plot markers - feno markers - and re-recording the exact location using high-accuracy gps. The collected data is provided on an Excel template and quality assured, with a short summary report. The contract will also include collecting a soil sample near to each of the 50 plots.

Total value (estimated)

- £13,333 excluding VAT
- £16,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 13 April 2026 to 31 December 2026
