- 35300000 - Weapons, ammunition and associated parts

II.2) Total final value of contract(s)

II.2.1) Total final value of contract(s)

Value: £520,834

Excluding VAT

Section IV: Procedure

Type of procedure

Negotiated without publication of a contract notice

Justification for the award of the contract without prior publication of a contract notice

1) Justification for the choice of the negotiated procedure without prior publication of a contract notice

The works/goods/services can be provided only by a particular tenderer for reasons that are:

technical

The Dismounted Close Combat programme team, part of the UK Ministry of Defence, has placed a 5-year contract with ISTECH Services Ltd for the Combined Support, Supply and Repair of in-service weapon and sight mount systems with the provision to procure additional systems if required.

It is considered that this Contract will be placed using the Negotiated Procedure without Prior Publication of a Contract Notice pursuant to Regulation 16(1)(a)(ii) and 16(1)(b)(i) of the UK Defence and Security Public Contracts Regulations 2011 for Technical Reasons. This is because ISTECH Services Ltd are the Original Equipment Manufacturers (OEM) and Design Authority (DA) and are the only economic entity with the necessary technical data, knowledge and expertise, and proprietary documentation maintained by the DA necessary to provide the required technical support and undertake any Post Design Services to ensure it complies with the Authority's specification and maintains operational performance and effectiveness of the in-service mount systems.

Without access to the proprietary documentation, technical drawings, tooling and test equipment, specific manufacturing processes and knowledge and expertise, any goods or services provided by another entity would require new testing, new verification and validation to ensure that the safety and suitability for service of the systems, operational performance and effectiveness, and the interoperability with other weapons and platforms is not compromised and that the Safety Case for the system is not invalidated. A change of supplier would also oblige the Authority to acquire goods having different technical characteristics, resulting in incompatibility between the existing platforms and weapons, affecting the support, technical publications and documentation, training, and logistics of a

multiple platform fleet from that already provided and currently in-service. There would also be disproportionate cost, time and technical difficulties incurred to the Authority associated with introducing new items into the Authority's supply chain and inventory.

IV.2) Award criteria

IV.2.1) Award criteria

Lowest price

IV.2.2) Information about electronic auction

An electronic auction has been used: no

IV.3) Administrative information

IV.3.1) File reference number attributed by the contracting authority

700987375

IV.3.2) Previous publication(s) concerning the same contract

Voluntary ex ante transparency notice

Notice number: [2021/S 000-004298](#) of 3 March 2021

Section V: Award of contract

Contract No

700987375

V.1) Date of contract award decision

16 August 2021
