Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

Under the NHS Long Term Plan Clinical Commissioning Groups (CCGs) are working towards a model of more integrated care within Primary Care alongside PCN and GP organisations. This model is still being developed in Herefordshire & Worcestershire. In the light of the current Covid 19 emergency situation, the focus of work is centred around post pandemic recovery. It would be unduly disruptive to the continuity of services for patients and cause substantial duplication of costs for the CCG to undertake a further procurement process at this point in time. It has become necessary therefore for the CCG, under Regulation 32 (b) (ii) to directly award a contract to SW Healthcare to ensure continuity and integrity of pathways during the next few years in post-pandemic recovery and during a period of immense change due to the development of new integrated pathways within the GP and PCN arena in Primary Care. Regulation 32 (b) (ii) states..>"where competition is absent for technical reasons..."The CCG does not feel that competition for this service exists at a viable financial level. The Fall-out from the pandemic emergency has now changed to post pandemic recovery efforts and this requires a focus on crucial resources to regain pre-pandemic levels of service and care. To change provider and pathways at this point would not be in the patients' interests.
