Other activity

Energy (Hydrogen)

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Hydrogen supply off-taker engagement

II.1.2) Main CPV code

- 24111600 - Hydrogen

II.1.3) Type of contract

Supplies

II.1.4) Short description

Renantis, working in collaboration with its partner HIVE Hydrogen, are seeking through this PIN to identify potential customers who are commercially interested in entering discussions about being an off-taker for the hydrogen available from Renantis from its Knockshinnoch Production Facility, based in the Community Council area of Patna, Electoral Ward of Doon Valley.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 24111600 - Hydrogen

II.2.3) Place of performance

NUTS codes

- UKM9 - Southern Scotland

Main site or place of performance

Community Council area of Patna, Electoral Ward of Doon Valley.

II.2.4) Description of the procurement

Renantis, working in collaboration with its partner HIVE Hydrogen, offer to supply green hydrogen that is compliant with the UK's low-carbon hydrogen standard to customers who are aiming to reduce their emissions and transition towards a net zero economy. The hydrogen offered is of fuel cell grade meeting at least one of the following standards: SAE:J2719_20151, ISO14687:2019, grade D. Hydrogen can either be collected or offered to be delivered using tube trailers and is expected to be available from Summer 2025 from an initial supply location.

We are seeking through this PIN to identify potential customers who are commercially interested in entering discussions about being an off-taker for the hydrogen available from Renantis from its Knockshinnoch Production Facility, based in the Community Council area of Patna, Electoral Ward of Doon Valley.

This interest can be a range of options including:

1. Collection from production site in Knockshinnoch
2. Delivery to usage site
3. Renantis/HIVE are willing to discuss alternative approaches which may be of interest to respondents

An Expression of Interest form is attached to the PIN notice, and we request that those interested complete and return this to the nominated contact point.

The potential customer must commit to the creation of an acceptable agreement to cover the supply of hydrogen and if required, engage in a supplementary agreement for the delivery of hydrogen to its usage site. Renantis/HIVE is interested in engaging with potential customers with prospective demand volumes of up to 5,700 kg green hydrogen per week. Renantis' site is powered completely by off-grid renewables, therefore potential customers will have the option of fuel availability 7 days per week, 24 hours per day subject to production availability.

All details are for information only. Please note, this prior information notice does not relate to a future commercial agreement. In this instance Renantis/HIVE are looking for notes of interest for entering a commercial arrangement with Renantis for the supply of hydrogen. Interested parties should return a completed copy of the Letter of Interest template included within this notice's attachments with their notice response.

II.3) Estimated date of publication of contract notice

1 January 2024

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
