Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

A Single Source Contract with Gentex Europe Ltd for the Gentex Amp Ops Core Headset is justified as competition is absent for the following reasons:

Design Support: Gentex Europe Ltd is the only approved Co-ordinating Design Organisation for the Gentex headset in UK and they are the only contractor with access to the relevant drawings and qualification evidence required to undertake design and manufacture activities of this headset type. The reason for this is that they are the only approved supplier and have access to the product design information to enable them to undertake any design modifications and repairs to the Gentex headsets. (2) Gentex Corporation who own the Intellectual Property Rights of the Gentex Amp Ops Core Headset system have appointed Gentex Europe Ltd as their UK partner and are not prepared to licence other suppliers to support or supply the equipment.

Repair: Due to the complexity of the equipment, Gentex Europe Ltd as the Co-ordinating designer, are the only supplier with the technical ability to undertake repair, maintenance and overhaul activities as they are the only company that supply this equipment. Any other contractor would require a licence from Gentex Corporation to obtain the drawings and list of spare parts required to undertake design and manufacture activities. This would take time for any other supplier to obtain but may not be granted by Gentex Corporation who own the IPR in this headset.

Safety: To compete this requirement would introduce the possibility of contravention of the CNAWR and the Defence Safety Authority (DSA) regulations as it would not be possible to ensure that another contractor would be sufficiently qualified, within the requisite timeframes, to undertake design and manufacture activities without including an associated unacceptable level of risk. This would result in the Authority not being able to fulfil CNAWR safety requirements which must be fulfilled to ensure the safe functioning of the forces. To comply with the CNAWR the principles of As Low As Reasonably Practicable (ALARP) must be adhered to. Reasonably practicable involves weighing a risk against the trouble, time and money needed to control it. Thus, ALARP describes the level to which the Authority expect to see workplace risks controlled.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract

Contract No

708085450

Title

The Provision of In-Service Support for Gentex headsets

A contract/lot is awarded: Yes

V.2) Award of contract
