II.2.3) Place of performance

NUTS codes

- UKF3 - Lincolnshire
- UKF25 - North Northamptonshire
- UKF24 - West Northamptonshire
- UKF14 - Nottingham
- UKF11 - Derby

Main site or place of performance

East Midlands

II.2.4) Description of the procurement

IVF can be a legitimate medical intervention as part of NHS provision where there is a medical reason for being unable to conceive a child. It may not always be possible to identify the precise nature of the medical reason and thus, infertility is defined as failure to conceive after frequent unprotected sexual intercourse for one to two years in couples in the reproductive age group or by undertaking the number of Donor Insemination cycles defined in the CCG's local policy without conceiving or by having a defined tubal blockage thereby preventing conception.

The aim of the service is to ensure that all Patients or service users eligible for NHS funded specialist fertility services in line with the Greater East Midlands Commissioning Policy for IVF/ICSI are treated in line with the policy and guidance issued by the Department of Health, Infertility Network and the revised NICE Guidance (CG 156) published in 2017.

The service will provide IVF/ICSI in line with the East Midlands policy, commencing with ovarian stimulation and deemed to be complete when all viable fresh and frozen embryos resulting from that stimulation have been transferred.

The aims and objectives of the IVF/ICSI Services are:

- To help patients with subfertility to achieve a successful pregnancy
- To offer assessment and treatment for patients with subfertility
- To provide a quality, safe, cost effective, IVF/ICSI service ensuring that the risk of infection and other complications to service users is minimized.
- To provide a personal service sensitive to the physical, psychological and emotional needs of service users.
- To ensure effective communications between service users and the service providers.
- To develop and implement data collection and monitoring processes which provides fertility services intelligence to support the future commissioning of fertility services.

These services are delivered as zero value / zero volume contracts paid on tariff for activity undertaken. Activity is driven by patient choice.

Full details of the service can be found and are included as part of the tender documentation within the project on EU-Supply. To access the documentation please visit EU-Supply on the link below and access project 45807 <https://uk.eu-supply.com/login.asp?B=UK>.

Once registered please complete the questions in the qualification and technical envelope. The deadline for responses is by 2pm 24th September 2021.
