II.1.4) Short description

The scheme comprises the design, fabrication and construction of a new pedestrian & cycle bridge crossing the existing A379 in South West Exeter. The bridge shall be a single span skew parabolic tied arch structure, incorporating handrail and uplighter lighting units. The A379 is due to be widened in the future and the span of the bridge is critical to ensure that the future widening can be facilitated. As part of the scheme, associated embankment earthworks and reinforced earth walls are anticipated to be necessary to support the bridge foundations.
