Description

Pool Re is seeking to reprocure its IT Managed Service to support a transformational approach to service delivery. The organisation requires a forward-thinking technology partner to meet our evolving requirements, as well as support delivery of its usual operational services.

We aim to engage a provider capable of:

- Introducing proven, innovative ways of working to deliver and support our business strategy.
- Accelerating implementation, time-to-value, and confidence in technology acquisition to support transformation programmes
- Enabling long-term planning and strategic development

- Reducing total cost of ownership, whilst maximising efficiency
- Providing access to additional expertise and resources to enhance outcomes

Pool Re operates with a small in-house IT team, which is currently complemented by an outsourced service. Our objective is to establish the optimal blend of in-house and outsourced expertise. In shaping our approach, key considerations include:

- Leveraging the advantages of a cloud-based environment
- Integrating innovative technologies where beneficial.
- Forming a strategic partnership that delivers significant value and aligns with our commitment to cost-effectiveness and shared values.

Competitive flexible procedure description

Pool Re are issuing this Tender Notice to commence the first stage of this procurement, via a Procurement Specific Questionnaire with accompanying Conditions of Participation.

Upon completion, a shortlisted selection of suppliers will be invited to the Invitation to Tender stage.

The ITT stage will include a written submission, followed by a Supplier Presentation stage.

Further details on down-selection between stages are included in the tender documents.

Justification for not publishing a preliminary market engagement notice

Pool Re determined that preliminary market engagement was not necessary for this procurement. The requirements were sufficiently clear, and market conditions were well understood, allowing for a competitive tender process without prior engagement.

A desktop market analysis was completed before publication.
