II.2) Description

II.2.3) Place of performance

NUTS codes

- UKJ14 - Oxfordshire

Main site or place of performance

Oxfordshire

II.2.4) Description of the procurement

We are looking to contract with specialist supplier who has Technical, and Project Management capability to deliver Fire Strategy Drawings, Reports and Fire Risk Assessments across a complexed portfolio of buildings including laboratories, workshops, offices, support facilities, assembly halls etc.

Fire Strategy Drawings shall be produced according to BS 1635:1990 Graphical Symbols and Abbreviations for Fire Protection Drawings and be provided in both DWG and PDF format. Existing building layout (DWG) drawings shall be made available.

Phase 1 of the project will review the existing information for each site and an initial site visit for each building to gather information for each fire risk assessment.

Further visits may be required to assess existing Hazards, fire engineering and building construction considerations for each retrospective fire strategy.

Phase 2 of the project will be to present to STFC how your Project Team will manage the programme of inspections, how the team is resourced, confirm the programme, and define what support you need from STFC Fire Safety Advisor team and Estates.

Phase 3 of the project will be to carryout collaborative Retrospective Fire Strategy Reports and Drawings of all buildings, and Fire risk assessments from these.

Provide detailed recommendation, remediation, training, and action plans.

Phase 4 of the project consists of the completion and accredited sign off, of Fire Strategies, Reports and Fire Risk Assessments.
