### **II.2.4) Description of the procurement**

EEM Ltd is looking to establish a framework to support our membership with their Net Zero and Decarbonisation targets to reduce Carbon emissions across their property stock. The framework will replace our existing EWI Framework (EEM0046) that is due to expire in April 2022.

We are looking to appoint contractors who can support members by carrying out works across their property stock to improve the building fabric, roofs, windows and insulation to increase energy efficiency.

The following types of works are provisional types of works to be covered by the framework and are subject to change before release of the tender documents and contract notice.

- External Wall Insulation
- Internal Wall Insulation
- Cavity Wall Insulation
- Solar Energy
- Solar PV Systems
- Solar Thermal
- Energy efficiency and decarbonisation property upgrades
- Grant and funding related energy efficiency works

The framework will be split into lots and geographical sublots, the lot structure has not yet been agreed but will be made clear within the tender documents.

At this stage the tender documents are not available and we do not have any further information to share. Full details will be released at the point of the contract notice and tender publication w/c 25th October 2021 .
