Services

II.1.4) Short description

These SCADA systems are used to provide enhanced monitoring and control at NI Water treatment Works, with both local and remote capabilities it is also used for reporting purposes both internally and to regulatory bodies such as DWI and NIEA. Site SCADA systems are critical to the efficient running of a treatment plant, failure of such systems carries with them financial penalties to the business, increased operational difficulties and adverse publicity relating to NI Water operations and its customer experience. NI Water wishes to procure a Contract to facilitate the supply of configuration, installation and commissioning services in support of SCADA software installed at NI Water sites during the life time of the proposed Contract. It is envisaged that this activity may encompass services provision to accommodate: i. Services at new or upgraded treatment works as

required by Asset Delivery (AD) and Business Improvement (BI) projects ii. SCADA Base Maintenance – supply of supplementary SCADA technical services at treatment works as required during the lifetime of the Contract.
