VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

The work associated with this Modification notice comprises the supply and installation of Zero Emission Odourisers the the refurbished odourising system comprising

8402 & &402 ZEO Odourisers

SCIM panel MKII

Electrical Back Plate & Cabinet Lighting

PRU & Vent Stack

Mechanical Installation

Electrical Installation

SR25 Site drawing update

Site specific design updates

Electrical design and site specific G17

Commissioning (Inc. FAT)

Waste Disposal

Freight

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

The modification relates to the supply and provision of proprietary equipment to be added to that which is currently being installed by the supplier in question under the original contract. It would not be practical to introduce another contractor into this work scheme as doing so would increase risk and cost to the project and provide for blurred ownership from a contractual and liability perspective of the system as a whole which for NGN is critical to its operation and license conditions

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £1,324,234

Total contract value after the modifications

Value excluding VAT: £1,730,348
