### Scope

### Reference

TTSC3106

### Description

To understand the commercial, operational and environmental context of airlines and airports, this contract offers the DfT access to detailed data on aviation performance, fares and emissions.

Specifically, service providing data on:

- airline costs, profits and route performance
- airport and airspace charges
- air fares
- carbon emissions from flights

This will enable the DfT to assess the commercial and environmental performance of the sector, and will inform analysis of policy options to improve outcomes for consumers and the economy.
