II.2.4) Description of the procurement

The Supplier will hire and supply building and construction tools and equipment to Additional Clients throughout the Framework Agreement and any Call Off Contracts.

The Supplier may also be required to hire, supply and install equipment to various Additional Clients within areas of the UK as submitted in their tender response throughout the Framework Agreement and any Call Off Contracts.

Suppliers will not be required to provide National Coverage.

The Supplier will ensure that the tools and equipment comply with the types requested by the Additional Clients and be of the required quality in accordance with the relevant British Standards and European Standards (or equivalent).

The full deliverables required are set out in the Specification, the full Specification is set out in the Invitation to Tender (ITT).

A Framework Alliance Contract will be awarded to thirty suppliers for this Lot.

The maximum number of suppliers may increase where 2 or more have tied scores in last position only.

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 40

Cost criterion - Name: Price / Weighting: 60

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

- 7) Redacted Offer Document

On 2.4.2014 Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:

https://www.gov.uk/government/publications/government-security-classifications

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.

Some purchases under this framework Agreement may have requirements that can be met under this Framework Agreement but the purchase of which may be exempt from the Procurement Regulations (as defined in Attachment 1 – About the framework within the invitation to tender documentation). In such cases, Call-offs from this Framework will be unregulated purchases for the purposes of the Procurement Regulations, and the buyers may, at their discretion, modify the terms of the Framework and any Call-off Contracts to reflect that buyer's specific needs.

CCS may also assess whether the selection criteria (in respect of III.1.3 Technical and professional ability), as set out in the procurement documents, is met on request from a Framework Agreement user (additional client) prior to the proposed conclusion of a call-off agreement (project contract) with a value in excess of 20 000 000 GBP.

The Supplier will pay, excluding VAT, 1% of all the Charges for the Deliverables invoiced to the Buyer under all Call-Off Contracts.
