The objectives of this contract are to:

- Contribute, over time, to a sustained increase in the rate of profitable, scaled technology businesses generated by the Scottish tech ecosystem.

- Create, for the first time, a truly world-class national infrastructure to co-locate, educate and scale technology companies.
- Provide technology companies with free access to first-rate commercial education in internet economy growth techniques and related disciplines.
- Provide technology companies with access to high-quality, long-term, flexible and affordable incubation space.
- Support the creation of a world class community and market square environment; facilitating collaboration, networking and the exchange of ideas.
- Provide full virtual access to commercial education and community events for technology companies unable to physically co-locate.
- Provide a clear focal point for the Scottish tech ecosystem and to create a scaled, expert partner to collaborate with the broader STER programme to establish Scotland as a first rate European tech hub.

VI.3) Additional information

The Contractor has agreed to carrying out the following community benefits:

1. Develop existing and create new educational relationships with schools and universities to deliver in person and online events and hosting visits
2. Use the above relationships to feed into curriculums to find out how tech start ups and others in the CodeBase Tech Scaler Network (CTSN) can be connect to them.
3. Connections to promising founders from entrepreneurial courses and clubs to identify ways to assist them as they outgrow university support, e.g. shadowing, interning or formal apprenticeship opportunities.
4. Pursue more programmes such as the Santander internship programmes, with particular focus on those that support under-represented groups and those wishing to reskill into tech.
5. Identify women within the network to act as role models and mentors and visit schools to talk to students about their journey and assist in identifying barriers to women to computer science studies with a view to making changes to further increase interest.
6. Identify partners who can assist with improving the number of companies founded by people with protected characteristics, e.g. working with founders who are part of protected characteristics groups to better understand and work to remove these.
