- 73110000 - Research services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Defra currently operates a framework contract providing scientific evidence and services to support its policy making and operational responsibilities including emergency response capabilities in relation to food and the environment. The contract is also used by other government departments, including but not limited to the Food Standards Agency,

Welsh Government and the Home Office. This framework is due to expire 31st March 2025. Any new provider must have the ability to deliver reliable, high-quality business and scientific services competitively; well-proven transition and transformational capabilities within challenging timeframes; and possess a vision and commitment to enhance relevant scientific capability into the future. The seamless continuation of services is essential due to statutory requirements, and Defra therefore must have a supplier that has the required capabilities in place within the timescales outlined in the Specification.

Interested parties can register to participate by emailing sscs@defra.gov.uk ensuring that 'Specialist Science and Contingency Services ME Session 3' is included in the subject of the email. Please provide details of your organisation, the names, emails and job titles of who will be participating and we will email a non-disclosure agreement (NDA) for you to sign and return. The NDA is non-negotiable. This notice is for information only and will help determine the procurement strategy for provision of the services to Defra. This is not a call for competition. Defra reserves the right not to enter a formal procurement process and not proceed with any contract award.

II.3) Estimated date of publication of contract notice

2 October 2023

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
